SIMULATED
Asset Management

Complete executive briefing

Agent: **Executive Leadership**

OPENING PROMPT

```
Prepare a complete executive briefing for the board covering firm-wide AUM and performance
across all strategies, client flow analysis with any concentration concerns, our top and
bottom performing strategies with context, and relevant investment philosophy positioning
that explains our current strategic direction. Generate a professional PDF for board
distribution.
```

The demo date is the latest price date in the Snowflake Public Data share at build time, and positions are month-end. Agents answer from live data, so figures, names and rankings in your environment can differ from the examples in this script.

Business Context Setup

Presenter Note: This scenario is deliberately a single prompt. Use it to show the agent autonomously selecting and sequencing several tools (KPI analytics, client flows, document search, PDF generation) from one request.

Persona: Sarah Chen, Head of Asset Management at Simulated Asset Management
Business Challenge: Executives sometimes need a complete firm briefing with a single request when preparing for board meetings or urgent stakeholder calls—requiring the AI to autonomously orchestrate all available executive tools.
Value Proposition: The Executive Copilot demonstrates complete autonomous orchestration by selecting and sequencing all tools from a single comprehensive question, delivering a board-ready briefing without step-by-step guidance.

Agent: `AM_executive_leadership_copilot`
Data Available:

- Firm-wide KPIs including FIRM_AUM (authoritative from holdings) and TOTAL_CLIENT_AUM (client-reported)
- Strategy performance metrics (QTD/YTD returns by strategy)
- Client flow data with 75 institutional clients
- Investment philosophy documents

Important AUM Distinction:

- **FIRM_AUM**: Authoritative figure calculated from actual portfolio holdings (a little under $7.5bn at time of writing; it moves with the weekly refresh). Use this for board and executive reporting.
- **TOTAL_CLIENT_AUM**: Sum of client-reported AUM with SAM. May differ from FIRM_AUM due to reporting timing.

Demo Flow

Scene Setting: Sarah has 5 minutes before a surprise call from the board chairman requesting an update on firm performance. She needs a complete executive briefing immediately.

Step 1: Complete Executive Briefing with PDF (All Tools)

User Input:

PROMPT

```
Prepare a complete executive briefing for the board covering firm-wide AUM and performance across all strategies, client flow analysis with any concentration concerns, our top and bottom performing strategies with context, and relevant investment philosophy positioning that explains our current strategic direction. Generate a professional PDF for board distribution.
```

Tools Used:

- `executive_kpi_analyzer` (Cortex Analyst) - FIRM_AUM, strategy performance (QTD/YTD), net flows, client analytics
- `search_internal_docs` (Cortex Search) - Investment philosophy and strategic positioning
- `pdf_generator` (Generic) - Generate branded PDF with `internal` audience for board briefing

Expected Response:

- **Headline KPIs**:
  - Total Firm AUM (from holdings, authoritative)
  - Net Flows YTD with gross inflows and outflows — strongly positive
  - Active Client Count: 75 institutional investors
- **Strategy Performance Table**:

Strategy	AUM	QTD Return	YTD Return	Net Flows (latest month)
[Top performers first, sorted by performance]				

- **Top and Bottom Performers**:
  - Top 3 strategies by QTD/YTD return with context
  - Bottom 3 strategies with explanation
- **Client Flow Analysis**:
  - Flow trends by client type
  - Concentration check: the largest single client is a small share of inflows, well under the 10% concern level; flows are broad-based across all six client types
  - Key segments driving flows
- **Strategic Context**:
  - Investment philosophy alignment
  - Strategic positioning summary
- **Key Messages for Board**:
  - 3-5 executive talking points
- **PDF Generation**:
  - Professional branded PDF with SAM logo
  - Internal document styling (INTERNAL DOCUMENT badge)
  - Download link for immediate board distribution

Talking Points:

- **Authoritative AUM**: Uses FIRM_AUM calculated from actual holdings for accurate board reporting
- **Autonomous Orchestration**: AI independently selects and sequences executive tools including PDF generation
- **Single-Query Capability**: Complete board briefing with formal PDF from one comprehensive question
- **Strategy Performance Integration**: QTD/YTD returns now available directly from executive view
- **Board-Ready Deliverable**: Professional PDF ready for governance distribution

Key Features Highlighted:

- **Multi-Tool AI Orchestration**: Agent autonomously determines tool sequence and synthesis including PDF generation
- **Holdings-Based AUM**: FIRM_AUM provides accurate, authoritative figure from portfolio data
- **Strategy Performance Metrics**: QTD/YTD returns calculated from weighted holdings performance
- **Board-Ready Format**: Professional executive summary with formal PDF suitable for governance reporting

Scenario Wrap-up

Business Impact Summary:

- **Rapid Response**: Complete executive briefing with PDF available in under 2 minutes
- **Comprehensive View**: Combines firm KPIs, strategy performance, client analytics, and strategic context
- **Data Accuracy**: Authoritative FIRM_AUM from holdings eliminates reporting discrepancies
- **Executive Productivity**: Hours of briefing preparation compressed into single query
- **Professional Deliverables**: Branded PDF ready for immediate board distribution

Technical Differentiators:

- **Multi-Tool Integration**: Demonstrates full Executive Copilot capability including PDF generation in single query
- **Holdings-Based Metrics**: FIRM_AUM and strategy performance calculated from actual portfolio data
- **Strategic Synthesis**: AI merges quantitative performance with qualitative positioning
- **Autonomous Operation**: True AI agent capability for executive decision support with formal deliverables
